SUNDAY RIVER

Mrs. R. M. Fleet, Corres.

Through her interest in and devotion to news reporting, Julia Fleet became Sunday River valley's pre-eminent historical resource for the 50 years before ski development transformed the valley after 1980. Her photographs of so many of the "old places" in the valley became important additions to Martha Fifield Wilkins sketches of life in the valley. Note in the following 1980 news article how she also was a weather reporter for the New York Times. In her photograph of the Fleet home one can see a radio antenna attached to the frame of a second story window.

Newry's 175th Anniversary Celebration Will Include Honors for Mrs. Fleet, August 9

A Newry citizen who will be honored at Newry's celebration of its 175th anniversary August 9, 1980 is Julia Fleet, who has the distinction of being the oldest resident. Born in Waterville, Maine February 8, 1897, she is the oldest of four children of Spencer and Bertha (Aker) Brookes.

Mrs. Fleet attended school in Gorham, graduating from Gorham High School. As was often the custom of the times, she started teaching immediately, furthering her education by taking summer courses at Gorham State Teachers College, and Farmington Teachers College.

She recalls teaching at Streaked Mountain, South Paris, Waldoboro, Wilson's Mills Magalloway, Bolsters Mills and Sunday River, Newry. She well remembers the country

school. Although most pupils, called scholars then, walked to school, some from a distance were carried to school by wagon in summer and sleigh in winter. In all, she taught school for over 25 years. The building where she taught at Sunday River, known as the Lower School, is now on the National Register of Historic Places and may be visited in the summer. It has been changed very little since Mrs. Fleet taught there.

In 1933 she married Roland Fleet and came to their home place on Sunday River where she has lived ever since. They had one son, David and five grandchildren. David married the former Edith Jeanne Rolfe.

Mrs. Fleet's interests and hobbies have been numerous. A great community service which she carried on for over 35 years was superintending and teaching Sunday school and Vacation Bible School. Both local and visiting children will happily the house spent with her in the Lower School. She has always enjoyed her garden and especially her pets. In the past they raise horses, cattle, chickens, pigs and turkeys. Even now retired and a widow, she had pet cats, a dog, a chicken and two geese. Injured animals and birds could also find a friend in her. Mrs. Fleet belonged to the Extension Service and has been a member of the Grange for 62 years.

She was a news writer for the Bethel Citizen, the Norway Advertiser and Rumford Falls Times for over 30 years. Her comments about local people were informative and colorful. For many years she operated a weather station for the Times. Now 83 years old, Mrs. Fleet speaks of the many changes on Sunday River, the famous Artist Bridge, the roads, houses and people both old-timers and newcomers.

This is the home of the John Nowlin family as it looked in 1946 when Mrs. Julia Fleet took the photo. Although the shed and barn are gone the house with some remodeling was moved back from the road but it still stands in 2011, located on the Sunday River Road across from the lower entrance to Coombs Village.
